Trident Steel Corporation

A Message from the President of Trident Steel Corporation

The 18th Century German Philosopher Hegel stated: "We may affirm absolutely that nothing great in the world has been accomplished without passion."

What began as a three-man brokerage company in 1978 has since evolved into a multimillion-dollar distribution company with sales offices and distribution centers located throughout the Gulf Coast and mid-continent regions.

Our product lines have consistently expanded to include seamless and welded line pipe and tubular products. Inventory is maintained in a variety of grades from ASTM and API 5LB/X52 through J55, K55 and even high collapse P110. However, with all of the changes, past and present, our core belief will not change:

"We will provide quality products from around the globe at competitive prices with the service to match."

Our passion to excel will continually drive us to meet your expectations.

Thank you for your interest in Trident Steel Corporation.

Kevin C. Beckmann
President

Oil Country Tubular Goods (OCTG)

- Macaroni: 1-1/2" & 2-1/16" OD.
Tubing: 2-3/8", 2-7/8", 3-1/2" OD.
Casing: 4-1/2", 5-1/2", 7", 7-5/8", 8-5/8", 9-5/8", 10-3/4", 11-3/4", 13-3/8" OD.
Grades: J-55, K-55, N-80, L-80, P-110
Ends: Plain end, STC, LTC, BTC.
- Specialties: Coatings according to customer specifications, Marker Joints, cutting, threading, beveling, cleaning, heat treating

Line Pipe

- ERW Sizes: 2-3/8" thru 24" OD.
154" thru .500" wall.
Grades: B thru X52.
Specs: ATSM, ASME, API-5L
- Seamless Sizes: 2-3/8" thru 14" OD.
Grades: B thru X42.
Specs: ASTM, ASME, API-5L
- Specialties: Fusion Bond Epoxy and TGF-3 coatings
Special order coatings to meet customer specifications.
